Subject: RE: Questions for conference call next Friday

Good day,

I have been working out most of the answers to your questions but lack the authority to commit to some of the answers. Howie Person as Plant Manager would have the final say in several of the issues at hand. Howie has been tied up quite a bit with a family illness so our time to confer has been minimal. I will try to get the bulk of the answers to you by midday tomorrow, I still have to dig around for some of the site diagrams and water balances.

My apologies for the late communication, we will be on the call at 10:00 this Friday the 11th.

Regards ...

Please note new schedule below, effective 12-5-2012.

- Jim Merchant

**Subject:** Questions for conference call next Friday

Hi Jim and Howard,

I have attached some questions that can serve as the basis for discussion for our call next Friday beginning at 10:00 AM, for which I had previously sent you a call-in number.

Feel free to call or e-mail me back prior to the meeting to discuss or answer any of these questions. I may also have a few more questions to add early next week. Thank you
